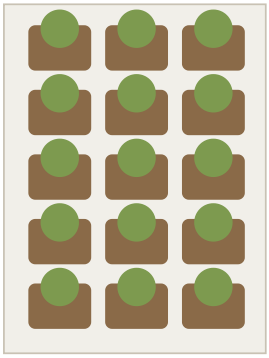
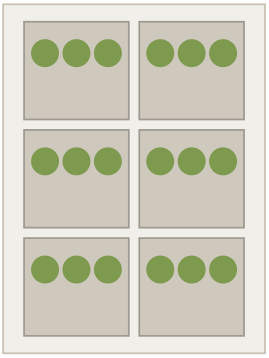
Vertical garden plant list for India

Plants matched to the light on the wall, with water and care notes. Pick the wall first, then the plants.

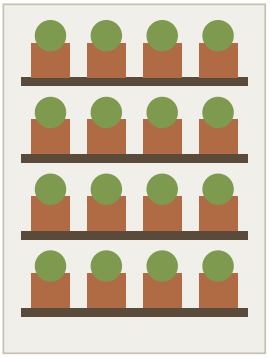
The four vertical garden systems



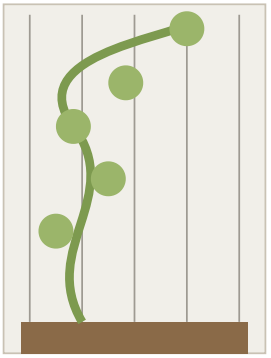
Felt / pocket
Dense look, shade or indoors
High upkeep



Modular panels
Swap plants module by module
Medium–high upkeep



Pot and rack
Balconies and homes
Medium upkeep



Green façade
Climbers on a trellis, hot walls
Lowest water, low upkeep

Plant	Best wall	Water	Notes
Money plant (Epipremnum aureum)	Indoor, shade	Medium	Trails and covers fast; tolerates low light
Philodendron (heartleaf)	Indoor, bright shade	Medium	Dense cover; no direct sun
Syngonium	Indoor, outdoor shade	Medium	Reliable filler
Spider plant (Chlorophytum)	Shade, morning sun	Low–medium	Tough, arching leaves
Boston fern (Nephrolepis)	Shade, humid	High	Needs steady moisture
Asparagus fern	Shade to part sun	Low–medium	Fine texture, tougher than true ferns
Wandering jew (Tradescantia)	Shade, morning sun	Medium	Trailing colour; trim often
Rhoeo (Tradescantia spathacea)	Part sun	Low–medium	Takes heat well
Portulaca	Full sun	Low	Flowers in heat
Wedelia	Full sun	Medium	Spreads fast; contain it
Succulents (sedum, echeveria)	Full sun	Very low	Very free-draining mix
Herbs (mint, basil, coriander)	Sun, not scorching	Medium	Kitchen wall, pot-and-rack

Bougainvillea, curtain creeper, Rangoon creeper	Hot sunny walls	Low–medium	Green façade on wires

Before you build

- [ ] Measure sun hours on the wall in summer and winter
- [ ] Tap, filter and timer near the wall
- [ ] Waterproof backing and an air gap behind panels
- [ ] Gutter or tray at the base
- [ ] Someone to check emitters and trim every month
